MONTALBANO *PARTNERS*

We take particular pride in being the authorized dealer of TON in our region. TON, a historic Czech furniture manufacturer, seamlessly merges tradition and innovation to create exceptional, timeless pieces.
Here's a glimpse into TON's history:

1861
Michael Thonet and his sons set up a bentwood furniture factory in Bystřice pod Hostýnem.

1876
Chair No. 18 – one of the first models which was produced here and is still a part of our portfolio today.

1903
The origin of the legendary Chair No. 9: known today under No. 30. The factory in Bystřice pod Hostýnem becomes the development and innovation centre of the whole Thonet concern.

1924
The prevailing demanding economic conditions led to the fusion of the competing Kohn, Mundus and Thonet companies – giving rise to the Thonet-Mundus concern. Despite the crisis, however, the factory in Bystřice pod Hostýnem continues to produce furniture throughout this period.

THONET MUNDUS

1930
Chair and Armchair No. 811 – designed by Josef Hoffmann.

1945
After the Second World War, when the factory was subject to the "Reichs Chancellor" and their administration, and given the post-war changes, the company was nationalised.

1953
The company's name is changed to TON, which is an abbreviation of the Czech "Továrna na Ohýbaný Nábytek" – literally, "Factory for Bentwood Furniture". Several other smaller production centres are allied with the factory. Nine years later, the new company logo comes into existence.

1994
The birth of the current TON joint stock company. The new company logo, with its iconic "Model No. 14", originates in 2003.

2010
The introduction of the Merano armchair – the most successful TON model since 1994. For its shapes it has been awarded a number of prestigious international design awards.

2011
The 150th Anniversary of the foundation of the factory. Chair no. 002, whose three components represent a simplified version of model no. 14 (who has six of them), was introduced to celebrate the occasion.

2015
TON, as the first in the world, introduces splitting of solid wood in the eponymous Split Collection, where the split wood is manually bent in opposite directions. This deed has been awarded by a number of design awards, including the prestigious Red Dot Award.

2020
To mark the ten-year anniversary of the launch of Merano armchair, TON released Petit Merano, the company's first limited edition product. Thirty Petit Merano armchairs were made available to bidders in a charity auction.

2018
Manually bent Chips Lounge Chair by Lucie Koldova, inspired by a potato chip. It was first exhibited at Das Haus at IMM Cologne.
